

March 2025 Footprints Newsletter - Welcome Spring!

Good Afternoon {{ contact.NAME }},

As we step into Spring 2025, the investment landscape for **Family Offices and UHN Investors** is evolving rapidly. After a challenging 2023 and 2024, we expected a stronger rebound in 2025—while this momentum is gaining traction in the **USA**, the UK continues to experience a **mass exodus of Family Offices, UHN Investors, and Entrepreneurs**.

**UPCOMING: Footprints Family Office
Forum: Easter Edition**

To address these critical shifts, this exclusive gathering will feature expert speakers and a **Family Office panel** discussing the pressing issue of **Non-Dom Migration**, followed by an interactive **Q&A session, fine wine, and networking.**

Event Details & Registration:

Thursday, March 27, 4:30 PM

The Washington Mayfair Hotel
5 Curzon Street London W1J 5HE

Where Are Family Offices & Entrepreneurs Moving?

Our research—and insights from [Forbes](#)—highlight the top European destinations for Non-Dom residencies:

 **Malta** |  **Greece** |  **Cyprus** |  **Italy** |  **Portugal**

 **New Entries: Hungary & Romania**

Beyond Europe, **Miami, Singapore, and Hong Kong** remain strongholds for UHN investors, while Dubai, UAE, and other Gulf states continue to attract entrepreneurs seeking **tax-efficient opportunities**. Panama and Mauritius are also emerging on the radar.

At the same time, we're witnessing an **influx of UHN American investors acquiring prime London properties**—many of which had been on the market for years—leading to an increase in **American-owned family offices in the UK.** [🔗 Read More on This Trend](#)

What's Driving These Decisions?

📌 **Tax & Inheritance Regulations** – The UK's April 2025 Budget is expected to impact the wealthiest residents significantly.

📌 **Lifestyle & Business Opportunities** – Some remain in the UK for personal and professional reasons, while others seek new beginnings in tax-friendly jurisdictions.

📌 **VAT on School Fees** – A growing concern for high-net-worth families with children in the UK.

If I were an entrepreneur today, I would certainly **explore the opportunities in Dubai**, as many of our **founders have done post-COVID**. [🔗 More on AI Startups Moving Abroad](#)

Investment & Private Placement Opportunities
